Response to Amendment

In response to the amendment filed August 16, 2004, in which the applicant amends claim 1 and claims 1-21 are pending in this office action.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John A. Griecci Reg. No. 39,694 on November 23, 2004.

The application has been amended as follows:

In claim 13, line 4, please insert the word --electronic-- before the word game program.

The above change was authorized by applicant's representative to clear up a minor issue and place the case in condition for allowance.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior of record does not disclose nor teach the element of putting playable objects in focus, and blurring other objects based upon their distances from the in focus, playable object in combination with the rest of the claimed limitations. The closest prior art only disclose a blur processor capable providing

depth perception by making objects near a focus depth clear, and blurring objects distant from the focus depth and not putting playable objects in focus, and blurring other objects based upon their distances from the in focus, playable object. This statement is not intended to necessarily state all the reasons for allowance or all the details why claims are allowed and should not imply that all the reasons for allowance have been set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
